

Use of OCOW Outdoor Learning PADLET

Link - <https://padlet.com/katieeberstein1/our-city-our-world-outdoor-learning-throughout-the-curriculu-7m40rimahcqzunj6>

Once you've set it up once, it should automatically appear when you type 'padlet' into eg google.

Password – normal OCOW password – email info@ourcityourworld.co.uk if you don't have this.

This padlet is a resource bank for everyone to use and contribute to – the more you contribute, hopefully the more useful it will be!

Adding activities;

- You can create a new entry by clicking on the + underneath the relevant curriculum area. This will put your entry at the top of the column. I have tried to include some order to the entries for ease of looking (eg grouping all poetry eggs together or keeping to NC order). Where possible, you can add an entry in an appropriate place, by clicking on the 3 dots in the entry above where you want to add it and then clicking 'add post after'
- 'Subject' - use a generic title eg shape, spelling, maps.
- 'Write something fabulous' - either write a description of your activity OR paste the web link to the activity.

You can also:

- Add text / pictures related to the activity by clicking on edit (comes up when you hover around top right hand corner of post, next to 3 dots) and clicking on the appropriate hexagon
- Add ratings – useful for other teachers to see

- Add comments – what worked well / even better if... etc
